

# PRINT DATA REQUIREMENT

---

## FORMAT

- PDF
- embed fonts - if necessary convert to curves
- other formats after consulting

---

## SCALE

- 1:1, 1:10 or 1:100

---

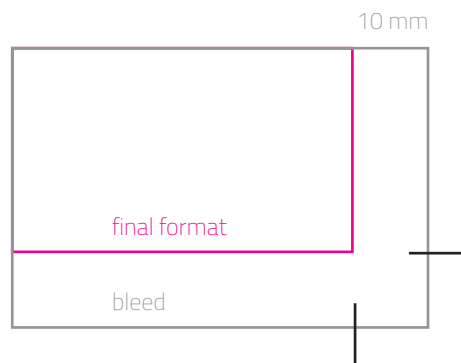

## NAMING

- according to construction drawing
- measurements and scale in the filename
- Example: WALL\_A\_3500X1500\_1T010.pdf

---

## BLEED

- bleed 10mm (scale 1:10 = 1mm)
- with cropmarks

---

## COLOR

- CMYK-colors, no RGB colors
- Use of special color after consulting
- colors can change according to used print material

---

## RESOLUTION

- please notice: print data with scale 1:10 need 10x resolution (300dpi x scale 10 = 3000 dpi)
- optimum resolution: 300 dpi
- acceptable resolution: 150 dpi
- minimum resolution: 72 dpi

---

## TIP

- for cutouts always convert fonts into curves and use vector-data
-
